KEY PROFILE

Motivated by curiosity to understand and build for real world problems:

- Will be attending SuperAI Next Hackathon 2026!
- Exco member for SMU Smart City Society 2021 & 2022
- Co-led an inaugural school-wide Hackathon 2021 & 2022 (Code for Cities)
- Team shortlisted as Top 3 Finalist (Healthcare) AIxImpact Student Case Competition by QuantumBlack

Interest and experience in various areas of technology (research + development) - IoT/NLP/CV

- [NLP] Completed Masters Research Project on LLM safety using mechanistic interpretability ideas: Can we use latent representation of language models to detect harmful input prompts?
- [CV] Currently working on building biomedical image classification model via feature representations from image foundation models (DINO)
- [CV] Completed Final Year Project on Elderly fall detection IoT system using real-time image streaming with YOLO object detection model on Raspberry pi

Relevant Tools/Skills: python, numpy, pytorch, scikit-learn, huggingface, streamlit, mlflow, NLP/CV

EXPERIENCES

ImmunoQs (A-Star startup) Data Engineer I | May 2025 - Present 2026

- Supporting company with developing image data processing scripts and quality check tasks
- Developing internal tools to improve workflow efficiency, and automations for bioimage analysis

IMDA AI Data Engineering Intern | Jan – May 2023

- Conducted data engineering and research tasks to assist the Artificial Intelligence Programme Office (AIPO) team in training a large language model to support the Singapore's legal sector (Python, Flask, Streamlit)

SMU Research Assistant | May – Dec 2022

- Assisted professor in researching the use of Bayesian Networks for Stroke Rehabilitation Assessment (Explainable AI) using CasualNex library

SMU Teaching Assistant – Analytics Foundation | January – April 2022

Tech Intern (Ministry of Social and Family Development) | June – July 2021

- Built a dashboard on SAS Viya to support technological initiatives under the Digital Therapeutics Unit

EDUCATION

Masters of Science in Computing | Singapore Management University – Aug 2023 – Dec 2024

- Modules Taken: Machine Learning, Convex Optimisation, Human Computer Interaction, Deep Learning and Computer Vision, Learning and Planning in intelligent systems — GPA: 3.76
- Capstone: Applying Mechanistic Interpretability tools for detection of undesirable LLM behaviours (A); https://github.com/xinrose-lin/locating_latent_rep_of_harm (pytorch, sae_lens - a research library)
- SCIS Local Fast Track Scholarship 2023

Bachelor of Science (Computing & Information Systems) | Singapore Management University

– Aug 2020 – 2024

- Smart Cities Management & Technology Major, Technology for Business Solutions Major – GPA: 3.45
- Relevant modules: IS470 Guided Research in Computing (A); Analytics Applications for Smart Living (A+);
- Completed SMU SIGMA Global Virtual Course 2021 – Managing the SDGs: Collaborated remotely students from Europe to analyse and recommend sustainability strategies for a business case.

IB Diploma | Anglo Chinese School Independent - 2018 – 2019

- IB grade (Nov 2019) - 38
- Subject Combination:
 - Higher level: Biology, Chemistry, Math
 - Standard Level: Language & Literature, Business Management, Malay ab initio
- Extended Essay – World Studies: Climate Change impacts on Mental Health in Pacific Small Island Developing States
- Awards: Certificates of Distinction – Christian Fellowship, Philharmonic Orchestra

O levels | Tanjong Katong Girls' School - 2014 – 2017

- 9 O' level subjects – L1R5 – 6
- A1 & A2: Math, Additional math, Biology, Chemistry, Physics, Higher Music, Higher Chinese, Chinese, Combined Humanities (Geography elective/SS)
- Awards:
 - o Edusave Character award – 2012 & 2017
 - o Edusave Scholarship – 2013 - 2017
 - o EAGLES award – 2017
 - o TKGS Academic Excellence Award (7A1s) - 2017
 - o TKGS Academic Award – Music Elective Programme – 2014

ACTIVITIES

SMU Smart City Society (SMU) | 2021 & 2022

- 3rd & 4th EXCO Committee Member (Honorary Finance Secretary, Honorary General Secretary)
 - o Plans and conduct workshops and programmes in collaboration with partners in the Smart Cities industry together with EXCO committee of eight
 - o Co-led a 4 weeks long inaugural school-wide Hackathon (Code for Cities 2021 & 2022)
 - o Managed the budget of the club (2021)
 - o Managed internal exco communications (eg. meeting minutes, club documentation) (2022)

OTHER ACHIEVEMENTS / INTERESTS

- Certification / Competitions
 - o AI200: Applied Machine Learning by Heicoders Academy (Professionals) – 2020
 - o Team shortlisted as Top 3 Finalist for Healthcare category of AlxImpact Student Case Competition by QuantumBlack, a McKinsey company amongst 40 teams across Asia
- Volunteer/Achievements
 - o Volunteer mentor for Project HeartCode – December 2021
 - o Volunteer Tutor with YMCA Uni-Y @ SMU – June - October 2021
 - o National Youth Achievement Award – Bronze and Silver - 2017
